Introduction

International Dental Summer Course 2024

1st International Dental Summer Course 2024

Discovering Eastern Indonesia
(South Sulawesi and Bali)

Theme: Discovering Eastern Indonesia

Embark on a transformative adventure and immerse yourself in Indonesia's vibrant cultural heritage. Experience firsthand South Sulawesi and Bali's captivating traditions, customs, and socio-cultural uniqueness, gaining a profound understanding of its rich tapestry of history and heritage. This immersive journey will broaden participants' horizons, foster personal growth, and create lasting memories that will stay with them for a lifetime.

Program Summary:

Hosted by the Faculty of Dentistry at Hasanuddin University Makassar and the Dental Education Study Program at the University of Udayana Bali, this ten-day program (August 4th to 13th, 2024) offers academic, cultural, and social activities to foster personal and academic growth.

Duration

4th to 13th August 2024
Makassar and Bali, Indonesia

Timeline

- Makassar: 4th to 9th August 2024
- Bali: 10th to 13th August 2024

Venue I

Hasanuddin University, Faculty of Dentistry, Makassar-Indonesia

The Faculty of Dentistry at Hasanuddin University is an esteemed institution located in Makassar, South Sulawesi, Indonesia. The faculty is renowned for its excellence in dental education, research, and community engagement. It has a long-standing history of providing comprehensive dental training and producing highly skilled dental professionals.

It offers undergraduate and postgraduate programs, providing students with a solid foundation in dental sciences and clinical skills. The faculty is equipped with state-of-the-art facilities and modern dental clinics that provide high-quality dental care to patients while offering practical training opportunities for future dentists.

Venue II

Udayana University Bali-Indonesia Dental Education Study Program.

The Dental Education Study Program at Udayana University in Bali, Indonesia, is a renowned institution offering a comprehensive dental education program to pursue an undergraduate program leading to a Bachelor of Doctor Dentist (DDS). The department's faculty members are experienced professionals dedicated to teaching and research, providing mentorship and guidance to students. They also promote research activities that contribute to advancements in dental knowledge. Additionally, the department actively engages in community outreach programs, delivering oral health education and dental care to underserved communities.

Program Scope

Personal and Social Engagement

The program offers a comprehensive learning experience through interaction with students and faculty members from two universities, and field trips to tourist areas for cultural immersion. Through collaborative programs, students will engage with diverse perspectives, while field trips provide an opportunity to experience local traditions firsthand, and fostering a sense of community engagement

Academic Enrichment in Dentistry

The program offers interactive classes and academic sessions where students learn directly from experienced faculty members and dental professionals. By combining interactive learning with the expertise of our faculty, students receive a comprehensive education that prepares them for success in the dental field.

Cultural Immersion

Our program offers an orientation to the culture, history, and customs of South Sulawesi and Bali, complemented by excursions to historical sites, markets and museums.

Dental Hospital Clinical Observation

Our clinical observation program allows participants to observe experienced dentists, gaining practical insights and bridging theory with real-world dental practices. Reflective sessions deepen their understanding, and integrating the program with academic sessions enhances their overall learning experience.

Agenda

Academic Programs

1. Interactive Lectures
2. Campus Tour
3. Dental Hospital Tour
4. Clinical Observation
5. Campus Life Experience:
Interaction with students and faculty members of the Faculty of Dentistry at Hasanuddin University Makassar and Udayana University Bali.

Socio-cultural Programs

1. Community service program
2. Cultural Immersion and Socio-Cultural Exploration: Hands-on activities in traditional clothing and cuisine, Field trips to experience local traditions. Regarding this program, the participants are expected to prepare their traditional clothing and traditional gifts they may share with other participants.
3. Excursions: City tours to tourism, traditional markets, and museums
4. Community Engagement: Volunteering opportunities in local communities
5. Culinary Exploration: Experiencing traditional South Sulawesi and Bali dishes.
6. Welcoming Dinner
7. Final Showcase: Participants present their learnings and experiences to the university community (Written or Oral).

Expected Outcomes

Academic Enrichment

The program is hosted by reputable universities in Indonesia, namely Hasanuddin University Makassar and the University of Udayana Bali. Participants will have the chance to learn from experienced faculty members and dental professionals through academic sessions, and clinical observation.

Personal Growth

The program's transformative adventure aims to foster personal growth among participants. Participants will develop adaptability, open-mindedness, and intercultural competence by stepping out of their comfort zones and experiencing a different culture. The outcome will be increased self-confidence, resilience, and a broader perspective.

Cultural Immersion

Participants will have the opportunity to immerse themselves in the rich cultural heritage of Indonesia, specifically South Sulawesi and Bali. They will engage in various activities such as visiting historical sites, and interacting with local communities. The outcome will be a deeper appreciation and understanding of the region's traditions, customs, and socio-cultural uniqueness.

Lasting Memories

The program promises to create lasting memories for participants. Through shared experiences, participants will forge friendships, develop bonds, and engage in meaningful cultural exchange. The outcome will be cherished memories and lifelong connections with people from diverse backgrounds, fostering a sense of global citizenship and cultural appreciation.

Networking and Collaboration

Our program offers an orientation to the culture, history, and customs of South Sulawesi and Bali, complemented by excursions to historical sites, markets, and museums.
